Professional Summary

Electronics and Communication Engineering undergraduate with strong programming skills in Python and Java, hands-on experience in Generative AI, Prompt Engineering, and AI-powered application development. Proficient in Git, GitHub, version control, and collaborative software development workflows. Passionate about solving software engineering problems using Artificial Intelligence and Large Language Models (LLMs). Strong analytical, problem-solving, and communication skills with a continuous learning mindset.

Education

Vasireddy Venkatadri Institute of Technology (VVIT)

2023 – Present

Bachelor of Technology (Electronics and Communication Engineering)

CGPA: 8.21/10

Expected Graduation: May 2027

Technical Skills

Programming Languages: Python, Java

Artificial Intelligence: Generative AI, Prompt Engineering, Large Language Models (LLMs)

Software Engineering: Object-Oriented Programming (OOP), Problem Solving, Data Analysis, Debugging

Developer Tools: Git, GitHub, VS Code, Microsoft Excel

Professional Skills: Team Collaboration, Communication, Leadership, Analytical Thinking, Adaptability

Relevant Coursework

Python Programming • Object-Oriented Programming • Artificial Intelligence • Problem Solving

Projects

Hands-on Generative AI Project (NxtWave)

- Completed a hands-on Generative AI project focused on prompt engineering and AI-assisted workflows.
- Designed and refined prompts to improve the quality and relevance of AI-generated responses.
- Explored practical applications of Large Language Models (LLMs) for solving real-world tasks.
- Strengthened Python programming and AI application development skills through guided implementation.

Stock Market Analysis and Prediction

- Developed a Python-based application to analyze historical stock market datasets.
- Performed data preprocessing, trend analysis, and visualization to identify market patterns.
- Generated analytical insights to support data-driven decision making.
- Applied problem-solving and data analysis techniques to improve understanding of financial trends.

Farmers Marketing Application

- Designed a farmer-to-consumer digital marketplace to improve direct product sales.
- Planned application workflows to reduce intermediaries and improve market accessibility.
- Collaborated on feature planning, user requirements, and solution design.
- Strengthened teamwork and software development planning skills through collaborative project execution.

Certifications

- Hands-on Generative AI Project – NxtWave
- Generative AI for Beginners
- Git & GitHub Bootcamp – Udemy
- Problem Solving with Python Bootcamp
- AI Tools Workshop – Be10X
- AWS Data Engineering Virtual Internship
- Google Cloud Skills Boost
- National Integration Camp (NIC)
- National Service Scheme (NSS) Volunteer

GitHub Highlights

- Maintained GitHub repositories featuring Python programs, academic projects, and AI learning exercises.
- Used Git and GitHub for version control, project organization, and collaborative development workflows.
- Continuously improved coding skills by documenting projects and practicing software development using GitHub.

Leadership & Volunteering

National Service Scheme (NSS) Volunteer

- Organized and participated in community service initiatives, awareness campaigns, and volunteer activities.
- Collaborated with teams to plan and execute events, demonstrating leadership and teamwork.
- Strengthened communication, adaptability, organizational, and interpersonal skills through active participation.

Achievements

- Represented Andhra Pradesh at the National Integration Camp (NIC), Bihar.
- Collaborated with students from across India, demonstrating leadership, teamwork, adaptability, and cultural awareness.
- Successfully completed multiple industry-recognized certifications in Generative AI, Python, Git, and Cloud technologies.

Languages

- Urdu (Native)
- Telugu (Native)
- English (Professional Working Proficiency)
- Hindi (Professional Working Proficiency)

Areas of Interest

Generative AI • Software Engineering • Artificial Intelligence • Machine Learning • Problem Solving
